Bee Keeping 101

March 21 – May 2

Every Tuesday 6:30pm-7:30pm

Efforts to domesticate bees are shown in Egyptian art around 4,500 years ago. Simple hives and smoke were used and honey was stored in jars, some of which were found in the tombs of pharaohs such as Tutankhamun. It wasn't until the 18th century that European understanding of the colonies and biology of bees allowed the construction of the moveable comb hive so that honey could be harvested without destroying the entire colony. Would you like to learn how to care for bees? This class will give you a beginners understanding of bee keeping.
